

Professional Summary

Barbara Dendy

Information and Administration Manager

Barbara Dendy provides marketing, project, administrative, and geographic information systems (GIS) support to McCallum Sweeney Consulting. Ms. Dendy's primary responsibilities are to create, manage, and update GIS databases; manipulate and edit data for site location analyses; and produce project-related exhibits.

Recent projects in which Ms. Dendy has supported McCallum Sweeney Consulting using GIS include a joint venture with SGL Group and BMW Group (carbon fiber), Alstom Power Inc. (wind turbines), Nordex (wind turbines and rotor blades), American Titanium Works (titanium melting and forming), PACCAR (engine manufacturing), LM Glasfiber (wind energy), Austal (shipbuilding), Atlantic Marine (maritime transportation), Berg Pipe (spiral steel pipe mill), Varian Medical Systems (medical equipment), Oreck (appliance manufacturing), and International Shipholding Corporation (headquarters relocation).

Before joining McCallum Sweeney Consulting, Ms. Dendy spent more than 25 years with Fluor Corporation, 7 of which were spent in support of site location consulting efforts. Her location consulting experience centered on GIS support. An example of Ms. Dendy's GIS work was published in ESRI's 2003 Map Book, Volume 18, entitled "Alternative Creation Screening Example." She also edited proposals, qualifications documents, brochures, and presentations; and assisted with the development of project deliverables.

Prior to joining Fluor Corporation, Ms. Dendy completed five years with the Environmental Quality Control arm of the South Carolina Department of Health and Environmental Control (SCDHEC).

She is a member of the South Carolina Economic Developers Association (SCEDA) and The Council for Community and Economic Research (C2ER).
