

## Professional Summary

### **Sarah Smith**

*Consultant*

Sarah Smith joined McCallum Sweeney Consulting as a consultant in August 2008.

Presently, Ms. Smith is providing site evaluation and labor analysis on a number of major site location projects. She has provided support for siting announcements including a joint venture carbon fiber manufacturing facility for SGL Group and BMW Group to produce zero and low emission vehicles and Alstom Power Inc. with the location decision for their first United States wind turbine manufacturing operation. She has also assisted on major economic development projects for Duke Energy, MeadWestvaco, South Carolina Department of Commerce, and other various certified sites.

Ms. Smith graduated from the University of South Carolina with a Bachelor of Science degree in Business Administration. Her professional background includes an internship with the South Carolina Department of Commerce with the South Carolina Coordinating Council for Economic Development and Human Resources Office.
